Work & Report

Offline Activity Reporting

Work & Report on any device:

The CrossLoom module Work & Report is designed to optimise the field work of your company. No matter who, when and where: Work & Report offers modern technology that generates effective and efficient reports. CrossLoom is the development engine from UMa Soft GmbH.

The data is processed automatically in the company right away. It can be transferred to all relevant company systems via workflow support. On a back office portal, decision-makers can check and approve at all times.

The solution is so flexible and dynamic that it can be easily adapted to your company's requirements. Wishes can be implemented quickly in CrossLoom and can be tested right away.

Work & Report stands for:

- Mobility
- Productivity
- Competitive advantage

When it comes to motivated working, another important point is a simple and efficient operation. Again, we are on the technical level of tomorrow. Work & Report can be used on any device with a standard internet browser. You can run it on your tablet PC, laptop or smartphone, no matter whether it is iOS, Android or Windows. The interface has a simple and comfortable design. Functionality and design go hand in hand.

With Work & Report, your field workers can focus on their core competences! That way, an efficient use of valuable resources is ensured.

A fast, high quality preparation and documentation of field work can be done effortlessly along the way.

United to serve you

UMa Soft sets great value upon function-oriented software that offers the customer a maximum degree of influence on individual user guidance while holding on to standards.

Easy to understand tutorials and the respective licences enable the customer to expand solutions independently and to adapt them to their individual needs

In its role as an implementation partner, 3Txpert realises projects on the basis of UMa Soft software. With the expertise of having worked with Cross-Loom, as well as a wide range of process know-how, 3Txpert is predestined to ideally implement the customer's wishes in a Work & Report project. 3Txpert is the development partner of UMa Soft and strongly involved in the further enhancements of Work & Report.
